25X1

In compliance with a general directive issued by the Central Committee of the Communist Party of Austria (KPOs), the KPOs founded so-called enterprise action committees in numerous large SALZBURG establishments. The purpose of these committees is to instigate protest meetings and strikes by labor. Such committees have been organized in the SALZBURG main railroad station and the SALZBURG-GNIGL railroad station, mainly used as mershaling and freight stations.

This document is hereby regraded to CONFIDENTIAL in accordance with the letter of 16 October 1978 from the Director of Central Intelligence to the Archivist of the United States.
